EVAPORATOR TRAY DTHX - SRDTX

Calorflex offers a wide range of evaporator trays made of V0 self-extinguishing plastic and aluminum, which have the aim of collecting the condensate water, which is created during the defrost cycles of refrigerated storage cabinets, refrigerated display cases, fridge counters, etc. Evaporator trays that may be purchased individually without the CPTCx self-regulating cartridge are identified with code DTHx; evaporator trays that may be purchased with self-regulating cartridge heater CPTCx are identified with code SRDTx.

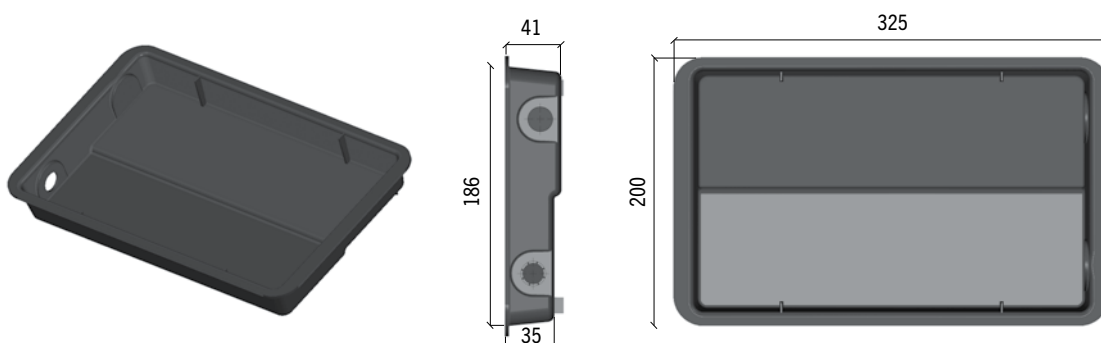

General technical features

- Dimensions: according to table
- Material of plastic trays: polycarbonate resin
- Self-extinguishing properties of plastic trays: compatible with self-extinguishing class V0 according to the UL 94 standard
- Maximum operating temperature of the heater: 180°C
- Maximum operating temperature of the tray: according to table
- Tray capacity: according to table
- Available certifications: EC
- Produced and tested according to the EN60335 standard. Compliance with the 2014/35/EU directive
